BE SURE TO CHECK INTO THE MONDAY NIGHT NET!

Club Meeting Thursday December 2nd 7:00 P.M
Western Hills Church of Christ
210 N General Bruce Dr
Temple, TX 76504

The December club meeting will only last about 30 minutes. The main purpose of the meeting is for club members to be able to sign up and pay for the TARC Christmas Dinner. Members can also sign up to work the Temple Christmas parade.

Please wait until the January club meeting to pay your 2022 club dues.

*This is because I am busy with the dinner, parade and spring Ham Expo registration preparations this month. Thanks.

TARC Christmas Dinner

WHEN: Saturday December 4th at Noon

WHERE: Clem Mikeska's in Temple
1217 S 57th

Order off the menu. If ordering menu items over \$20 understand that you are expected to cover the difference.

Temple Christmas Parade

WHEN: Monday December 6th at 6:30 (Staging begins at 4:00 PM)

WHERE: 201 N 8th (Bell County Health building parking lot-south side)

Handy items to have: 2 meter HT, safety vest, flashlight, clipboard, pen or pencil, snack and drink, weather appropriate attire. Workers will be able to park at the intersection they are assigned. So snack and drink, additional clothing and other items are accessible without having to be carried.

TARC dues for 2022

Please wait until the January club meeting to pay your 2022 dues. There will be an updated membership form to fill out. Every member, new or renewing needs to fill out the form.

Spring Ham Expo

Believe it or not it is getting near time for registration to open for our spring Ham Expo. Registration will open right after Christmas.

Old Haunts

With the year ending and everyone concentrating on out with the old and in with the new I thought it might be interesting to include a photo of the old Cultural Activities Center building that was on Ave G in Temple. TARC held meetings and classes in this building circa mid 1970s.

Microsoft Windows 11 is a free upgrade for Windows 10 users. But your computer must be a supported system. Your computer must be new enough to include a TPM (Trusted Platform Module) and a function know as Secure Boot. These are Microsoft security features.

Fluke offers its ii910 Precision Acoustic Imager. This handheld instrument can be used to detect EMI. It visually pinpoints the location of the noise onto its image screen. Pictures of the EMI location can be saved to provide location information for repair personnel. A bit pricy though at over \$25,000.
